PROFILE

Seasoned, highly skilled and forward-looking Software Engineer with background in creating and executing

innovative software solutions to enhance productivity. Committed to delivering innovative and efficient solutions that drive company success

PROFESSIONAL EXPERIENCE

January 2021 – June 2021 Lagos, Nigeria

Bfree Africa, Software Engineer

During my software engineering internship at Bfree, I had the opportunity to work in a collaborative and dynamic team environment where I contributed to various aspects of software development. My primary responsibilities included:

- Collaborating with senior developers and cross-functional teams to design, develop, and maintain software applications.
- Writing and testing code in various programming languages (e.g., Java, Python) to implement new features and enhancements.
- Identifying and resolving software bugs and performance issues through troubleshooting and debugging.

April 2019 – September 2019 Lagos state, Nigeria CASTLEY GROUP OF COMPANIES, Software Engineer (INTERN)

January 2024 – September 2024 Lagos, Nigeria Cowris Tech, Frontend Engineer 2

At Cowris Tech, I lead a team of engineers in the development of various projects including the website, mobile app, and CRM system. I personally handle the website development, which can be accessed through the link provided in my bio. The website was created using next.js, TypeScript, and Tailwind CSS, and is hosted on Vercel. One of the main features of Cowris is the ability to exchange CAD to Naira and other currencies seamlessly.

EDUCATION

February 2023 –

SGL Technologies, Software Engineering

June 2023 Lagos, Nigeria
